

# Environment, Safety & Sustainability

At Valleywise Health, we support your efforts to work smarter, safer and more sustainable. From comprehensive safety programs to eco-friendly commuting incentives, we're committed to helping you stay safe and reduce your environment impact – both on and off the job.

## Safety

Safety comes first. Our goal is to provide a safe and secure environment where you can thrive – every day, every role.

## Travel Reduction Program

We provide transportation subsidies and commuter support for employees who use public transit, bike, walk or carpool to work.

## Sustainability

Sustainability matters here. Our goal is to create a healthier today for you and our patients and a healthier future by reducing our environment impact and supporting green choices at work and beyond.

## And there's more – because you deserve more!

- We provide designated car-pool spots to make ride-sharing easier.
- Valleywise Health is the only one of nine hospitals across the country to earn the distinction Voluntary Protection Program (VPP) "star" distinction for safety.
- Annually we recycle almost 270 million tons of waste, saving the earth one box at a time.
- Our Safety Representative Program empower our staff to be the eyes and ears to make sure we work safe every single day.
